EDUCATION

Prince of Songkla University

- Bachelor of Engineering
Computer Engineering
2023 – 2027 (Expected)
- Honors: Awarded Certificate of Academic Excellence
 - GPA: 3.91

COMPETITIONS

ICPC Thailand National Competition 2024

- National competitive programming contest (team-based, algorithmic problem solving)

PSU Open API Contest 2024

- Competition to build applications using PSU Open APIs, judged on technical quality and innovation

SKILLS

- Linux
- Docker
- AWS/GCP
- GitHub Actions
- TypeScript
- NestJS
- Next.js
- Git

ABOUT ME

A dedicated Computer Engineering student passionate about cloud technologies and system optimization. Combining strong full-stack development capabilities with **high adaptability** and **effective communication skills**. Seeking opportunities as a **DevOps/Cloud Engineer, Fullstack Developer, or System Analyst** to build robust software systems and drive technical efficiency.

EXPERIENCES

Baan Kru-Ly Registration System

2025

Fullstack Developer & DevOps Engineer

- Engineered a full-stack course registration platform (**Next.js, NestJS**) integrated with **LINE LIFF**.
- Configured **CI/CD pipelines** and deployed **Dockerized** applications to **Google Cloud Run**.

Archives BIA

2025 – 2026

Fullstack Developer & DevOps Engineer

- Developed a full-stack document management platform leveraging **React Router 7, TypeScript**, and a **NestJS** RESTful API.
- Managed containerized workflows with **Docker** and **BullMQ**, utilizing **MinIO** for object storage and **Playwright** for E2E testing.

Pharmaplex

2025 – 2026

QA Tester

- Executed comprehensive automated E2E testing using **Playwright** for a microservices-based pharmacy management platform.
- Validated system reliability across **React** frontends, **NestJS** backends, **Docker** deployments.

CERTIFICATIONS

- **Alibaba Cloud Certified Associate (ACA) – Cloud Computing | 2025** Expertise in cloud infrastructure, networking, and security.
- **2nd Runner-Up, Mini CTF Competition | 2025** Applied cybersecurity and system vulnerability analysis skills.
